EXPERIENCE

BNG Ferendia, Resita — Software Engineer

Sep 2019 - PRESENT

Worked at the backend of an employee management system. For developing this software, I used SpringBoot and Hibernate. The mysql database was held on a Docker container and for testing the application I used Postman.

EDUCATION

West University, Timisoara — Computer Science in English

Oct 2017 - Jul 2019

Colegiul Național Traian Lalescu, Resita — Mathematics Informatics English intensive

Sep 2012 - Jun 2016

PROJECTS

Andreibrindas.ro - a ReactJS application, that I deployed in a droplet on digitalocean, using Docker.

UMS - A REST API in SpringBoot with CRUD operations on a database

SKILLS

Java
SpringBoot
SQL
JavaScript
ReactJS
Git
HTML/ CSS
Docker

Qualities

Teamwork
Attention to details
Fast learner

LANGUAGES

English - Professional working proficiency

Romanian - Native

German - Currently Learning
